Summer Survey of Best Practices

This summer we will conduct a survey to promote safe and stable housing by identifying and adopting key “best practices” that can be used by new CLTs just starting out in their communities. Best practice results will be available following the summer survey.

Approaching 25 Years of Affordable Housing

The CLT homeownership model has been around since the 1970s and in Minnesota we have a rich, nearly twenty-five-year history of supporting working families. MNCLTC members share a common vision of Minnesota as a home to a strong Community Land Trust (CLT) Coalition serving a growing number of dynamic, effective and sustainable CLT organizations. The MNCLTC is dedicated to supporting new communities who want to begin a CLT as well as see existing CLTs expand into their communities.

MPR Spotlight on Minnesota Community Land Trust
